WORKFLOW OPTIMIZATION

I've detected a bottleneck in the Salesforce - > NetSuite sync. Would you like me to add a data validation node to prevent duplicate entries?

APPLY SUGGESTION

RECENT ACTIVITY

What is the current verification bottleneck?

INTELLIGENT SUGGESTION

I've detected a conflict in the "Synthetic Customer Profiles" orchestration. The data harvesting rate exceeds your current token quota. Would you like me to optimize the pruning logic or upgrade the capacity?

Integrations:

The screenshot displays the Bridge AI interface for a user named Aaron Estes. The left sidebar contains navigation options: Home, Database, Playbooks (highlighted), Tools, and Help Settings. The main content area is titled 'Gmail Email' and shows a 'connected' status with a 'Disconnect' button. Below this, a 'USAGE THIS MONTH' section displays three metrics: 1,200 Credits, 590 API Calls, and 99.9% Uptime. A 'CALL HISTORY' section lists two entries: 'message.send' (success, 5m ago) and 'thread.list' (success, 20m ago). The 'LINKED RESOURCES' section includes 'Follow-up Sequence' (Workflow), 'Aria' (Agent), and 'Email Generation' (Skill). On the right, a 'Bridge AI' sidebar shows 'WORKFLOW OPTIMIZATION' with a message about a bottleneck in the Salesforce NetSuite sync, an 'APPLY SUGGESTION' button, 'RECENT ACTIVITY' logs, and an 'INTELLIGENT SUGGESTION' about a conflict in the 'Synthetic Customer Profiles' orchestration. At the bottom right, there is a small preview of a chat interface with 'Extract entities' and 'Test queries' tabs.

Settings:

The screenshot displays the Bridge AI interface for a user named Aaron Estes, specifically the 'Settings' page. The left sidebar is identical to the previous screenshot, with 'Playbooks' highlighted. The main content area is titled 'Settings' and includes a subtitle 'Manage your workspace preferences'. It features four settings categories: 'Profile' (Manage your account and preferences), 'Notifications' (Configure alerts and notification channels), 'Security' (Two-factor authentication and API keys), and 'Appearance' (Theme, layout, and display settings). The right sidebar is also identical to the previous screenshot, showing 'Bridge AI' with workflow optimization, recent activity, and intelligent suggestions. The bottom right corner shows the same chat interface preview.
